Modern design
- Intuitive user interface with brewing knob and LCD display

PHILIPS

Coffee maker
With glass jug Grind and Brew System, Black metal

HD7761/00

Highlights

Integrated grinder

The conical burr grinder grinds fresh coffee beans for the desired number of cups right before brewing.

Grind Selector

The grind selector knob of the Philips coffeemaker allows choosing the ground size of your coffee to set your preferred coffee taste.

Grind-off function

Grind-off button disables the grinder and regular ground coffee can be used.

Strength select

The strength select of the Philips Grind & Brew coffeemaker lets you adjust the intensity of your coffee. Select from mild, medium or strong filter coffee.

Advanced water level indicator

Philips has developed this advanced water level indicator with light guides allowing you to follow easily how many cups you filled in the water tank.

Intuitive user interface

The user interface of the coffee machine is equipped with an LCD display and a unique brewing control knob, allowing you to intuitively select your coffee preferences (number of cups, strength, timer, grind-off).
